

CAPABILITIES

What Ellines Tech delivers

Software, AI, healthcare tech, design, and digital ops — from Nyeri & Nairobi for African teams that need shipped systems, not slideware.

Software engineering

Web, mobile, APIs, integrations, cloud-hosted systems (React, Flutter, Python, PostgreSQL, Docker, Cloudflare).

AI & automation

RV22, AfyaVox, chatbots, WhatsApp-ready flows, OCR, knowledge-backed assistants.

Healthcare tech

MedFlow modules: registration, billing, pharmacy, lab, outpatient, multi-branch reporting.

Design systems

Product UI, brand identity, campaign graphics, print-ready and merch artwork.

Digital ops

Hosting handoff, security baselines, SEO foundations, care plans & retainers.

Consulting

Roadmaps, cloud readiness, transformation framing, and hands-on IT advisory.

Industries

- Healthcare & clinics
- SMEs & retail
- Professional services
- Publishing & creative brands

Why teams choose us

- African-market context, global engineering standards
- Product + agency hybrid — packages or platforms
- Clear commercials: packages, invoices, client tracking
