Capabilities One-Pager

What Ellines Tech delivers

CORE CAPABILITIES

Software engineering â web, mobile, APIs, integrations, and cloud-hosted systems.

AI & automation â domain assistants, chat, WhatsApp-ready flows, knowledge-backed bots (RV22, AfyaVox).

Healthcare tech â MedFlow modules for registration, billing, pharmacy, lab, outpatient, and reporting.

Design â product UI, brand identity, campaign graphics, and print-ready assets.

Digital ops â hosting handoff, security baselines, SEO foundations, and care plans.

INDUSTRIES

Healthcare & clinics • SMEs & retail • Professional services • Publishing & creative • Public-facing brands needing reliable digital presence.

WHY TEAMS CHOOSE US

African-market context with global engineering standards.

Product + agency hybrid: ship packages quickly or scale into enterprise platforms.

Clear commercial process: packages, invoices, and client account tracking online.
