WHO WE ARE

Product engineering with client delivery

Ellines Tech is a Kenya-based technology company delivering software development, AI, web & mobile, cloud, cybersecurity hardening, branding, and digital transformation for enterprises, SMEs, clinics, and institutions across Africa and beyond.

Founded by **Elijah Mwangi M** (Founder, Ellines Group), we combine flagship platforms with scoped client work — clear deliverables, timelines, and payment stages before build starts.

- Head office: Square2 Street, Skt, Nyeri, Kenya — Head office
- Nairobi: Nairobi, Kenya — Client meetings & on-site by appointment
- Always open for demos, support, and project inquiries

How we engage

Discovery → scoped proposal → design & build → QA → launch → care. We map work to your workflows — not generic slide decks.

Commercial clarity

Published starter packages on /pricing, milestone projects, product licensing, and post-launch retainers. Enterprise modules quoted after discovery.

PRODUCTS

Platforms we build and operate

RV22 AI Assistant

Enterprise AI for support, workflows, and knowledge retrieval — natural language chat, custom knowledge bases, API integrations, multi-channel deployment.

Afyavox AI

Clinical AI assistant for voice-powered documentation, decision support, triage assistance, and multi-language patient communication.

MedFlow

Hospital & clinic operations — registration, EMR, billing & insurance, pharmacy, lab & radiology, multi-branch reporting.

- Built for African healthcare workflows
- Modular rollout by department

Juno4 · Lmar · custom

Juno4 AI platform, Lmar brand systems, ERPs, e-commerce, booking apps, and bespoke enterprise software — React, Flutter, Python, cloud-hosted.

1. EXECUTIVE SUMMARY

- 1. Executive Summary
