

CLIENT ENGAGEMENT GUIDE · 2026-07-26

How we work with you

A practical guide for sponsors and project leads
— what happens from first call to care plan.

Discovery → Care

Written scope

Nyeri & Nairobi, Kenya

Five stages, no surprises

1

Inquiry & discovery

Share goals, users, systems, constraints, and deadline. We may schedule a short call or Nairobi/Nyeri meeting. Outcome: shared understanding of the problem.

2

Proposal & commercial

You receive scope, deliverables, timeline, and payment stages. Starter work may map to a published /pricing package; enterprise work is custom-quoted.

3

Design & build

UX/visual direction (when in scope), engineering, integrations, and content handoff points. You review milestones — not a black box.

4

QA & launch

Testing against agreed acceptance notes, go-live support, and credentials/hosting handoff as specified.

5

Care (optional)

Retainer for bug fixes, dependency updates, small enhancements, and content help.

What we need from you

- A decision-maker or clear approver
- Brand assets / content (or a plan to create them)
- Access to systems for integrations
- Timely feedback on milestones

What you can expect from us

- Written scope before major build
- Named commercial path (package or estimate)
- Practical demos for product work
- Contact via email, phone, or WhatsApp
